**Reports:**

The Commission welcomed the new Juvenile Detective Pete LaVecchia. M. Nunn explained that the Commission is applying for a Competitive grant from the county and that the funds will be used for programs benefiting at risk children. She added that the program will teach those students how to use an I-pad and the E-reader, as these students do not usually have access to these types of devices at home and are used in some of the school programs. The thought is to teach those students the basic use of the device so that when in class the teachers can go straight to the lesson of the day.
